- ➔ Built new relationships with 306 community organizations
- ➔ Participated in 516 collaborative activities with existing partners

Clinical Visits

TSO agencies reported that, during the year, 60,170 teen clients (ages 10-19) visited their clinics for the purpose of receiving family planning or reproductive health care. Of these, Approximately 37% of these teens were visiting the clinic for the first time, and 63% were established clients returning for their first visit this fiscal year. An estimated 65% of teen clients were seen by the six agencies based in the Family PACT Waiver target counties.
